

Curriculum

Mission International Academy (MIA) follows the syllabus and pattern prescribed by the Central Board of Secondary Education (CBSE) New Delhi. With the changing needs of the time, MIA promotes experiential learning where the child is the center of learning. Activity-based education is imparted to ensure lifelong learning. The academy believes in Confucius' philosophy which states that "I hear and I forget. I see and I remember. I do and I understand." Learning by doing enhances the students' problem-solving, critical thinking, reasoning abilities, creative thinking and analytical skills which make them good knowledge creators, self-starters and good decision-makers.

The scholastic and co-scholastic areas of development are given due importance to ensure the all-round development of the students.
